Oro Valley, AZ 85737**

Dr. House has a Bachelors, two Masters, and a Ph.D. in Engineering and Economics from University of California at Davis. He is a Certified Energy Manager (CEM) and a Certified Sustainable Development Professional (CSDP) with the Association of Energy Engineers. He taught engineering in Graduate School at U.C. Davis for a number of years and is the founder and Co-Director of Hydropower for the U.C. Davis Energy Institute. He worked for the California Energy Commission for five years as a utility planner, and he was the chief utility planner for the California Public Utilities Commission for five years. In 1992 he started his own business (Water and Energy Consulting). He has been the Association of California Water Agencies (ACWA) energy consultant since 1992, representing 500 water agencies which are responsible for over 90 percent of the water delivered in California; is the California Rural Water Association (CRWA) energy specialist, representing over 1,100 rural water and wastewater systems; and is the energy trainer for the National Rural Water Association (NRWA). Dr. House also works for the California Public Utilities Commission as an expert witness on transmission issues and is their water-energy expert, and for the California Energy Commission as a researcher. He is an investment management expert consultant in the water and energy areas for: Gerson Lehman Group-GLG Scholar Program, eWork Markets, Price Waterhouse-Vantage Marketplace, Roundtable Group, Standard & Poor's-Society of Industrial Leaders, Coleman Research, and Guidepoint Advisors. He has been responsible for training and installation of over 25 small hydroelectric facilities in Southeast Asia. He is a member of the American Water Works Association (AWWA), American Society of Civil Engineers (ASCE), Sigma X - the National Research Honor Society, and Association of Energy Engineers (AEE).
